### **The Value of an Assessment**

When learning or behavior challenges cannot be well understood through a diagnostic interview, we turn to a more formal assessment process. Through the administration of targeted testing, we develop a profile for strengths and weaknesses and individualize strategies for success. A comprehensive evaluation provides guidance for treatment, community and school interventions.

Find out what RPG [Testing and Assessments](#) may help explain and the scope of evaluations available.

### **Functioning Through**

It is necessary for various cognitive skills to work well alone and together for effective executive functioning to take place. When individuals have ADHD and related Executive Functioning Impairment, generally one or more of six broad skill areas are affected that may make every day performance difficult.

The six functions that effect [cognitive functioning in ADHD](#) and Executive Functioning Impairment are...

### **We Hear You!**

What was particularly enjoyable about Dr. Rice's presentation to Schaarai Zedek Preschool and Child Development Center?

Here are just a few comments from the 40+ teachers who attended:

- *You were great! I enjoyed it a lot. Hope you can come back!*
- *Dr. Rice's comfortable nature.*
- *Dr. Rice has such a positive attitude!*
- *Information immersed with humor is so important.*

We could go on and on and on, but Dr. Rice has another speaking engagement to prepare for!
